

Exhibit: Designated Area Posting

Sign: Mandatory sign for OSHA designated areas

<p>Sample Sign</p>	 <p>The sample sign is a white rectangle with a black border. At the top is a red horizontal bar with a white exclamation mark in a triangle on the left and the word "DANGER" in white capital letters on the right. Below this bar, the text "Particularly Hazardous Substance Designated Area" is written in black. To the right of this text, the word "Sample" is written in black on a yellow rectangular background. Below that, the word "CARCINOGEN" is written in black. At the bottom, the text "Laboratory Standard Training or Escort Required" is written in black.</p>
<p>Signal Word [Required] [Required Format: White text on red background; Symbol is optional]</p>	 <p>Two options for the signal word are shown. The first is a red horizontal bar with a white exclamation mark in a triangle on the left and the word "DANGER" in white capital letters on the right, labeled "Format for new signs". The second is a red oval with a white exclamation mark in a triangle on the left and the word "DANGER" in white capital letters on the right, labeled "Acceptable on existing signs".</p>
<p>Hazard Warning (Required wording for areas with highly acute chemicals, carcinogens, reproductive hazards, or OSHA regulated areas) [Required Format: Black text color on white background]</p>	<ul style="list-style-type: none"> • Particularly Hazardous Substance Designated Area • [Carcinogen] or [Highly Acute Toxin] or [Reproductive Toxin] • Laboratory Standard Training or Escort Required
<p>Hazard Symbol: Particularly Hazardous Substance symbol is optional on signs</p>	 <p>The symbol is a red diamond with a black border. Inside the diamond is a black silhouette of a person with a white starburst on their chest, representing a health hazard.</p>
<p>PPE Symbol: [Optional] If used, consult Exhibit Design Specifications for Environmental, Health and Safety Sign, Placard and Labels for acceptable symbol(s)]</p>
